

# Hyperworks Installation Tutorial

Nick Garber & Jackson Talbert

# Overview

- 1) Contact a team admin to have an account made
- 2) Download software
- 3) Run installer and license software

# 1) Contact an admin to have an Altair account made

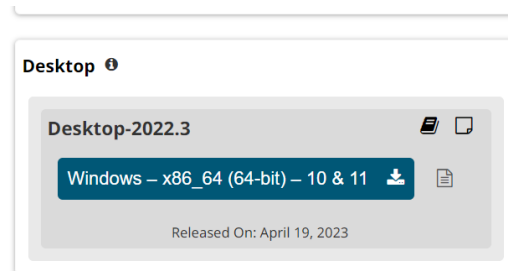

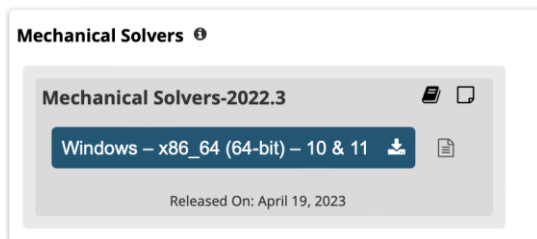

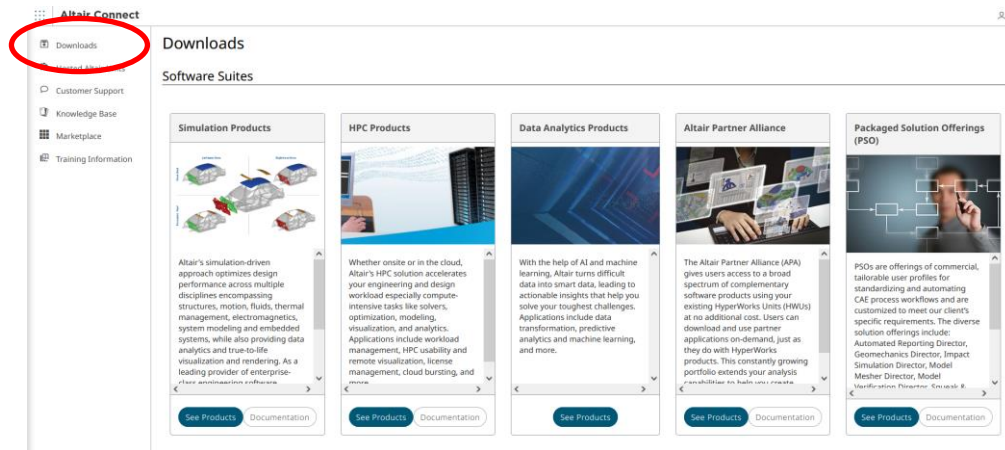

Current list of admins as of 06/26/2023:

- Nick Garber - Structures co-lead
  - Slack: @garber
  - Email:
    - [nagarber@wisc.edu](mailto:nagarber@wisc.edu)
    - [ngarber@go.uwracing.com](mailto:ngarber@go.uwracing.com)
- Jackson Talbert - Structures co-lead
  - Slack: @talbert
  - Email:
    - [jhtalbert@wisc.edu](mailto:jhtalbert@wisc.edu)

## 2) Software download

- Visit <https://connect.altair.com/CP/downloads.html?suite=HyperWorks>
- Click downloads on left side toolbar
- Scroll down until you see “Desktop-...” and click the blue download bar
- Repeat for the mechanical solvers package

### 3) Run installer

- a) Click through options to keep install going
- b) Ignore when prompted for a license
  - a) Likely something along the lines of “skip this step”
- c) Open Hyperworks application and when prompted for license, sign in with the Altair account that you made previously
